Michael Davitt GAC was established in 1912, we have almost 450 members and we proudly serve the people of the Beechmount, Clonard and Lower Falls areas. We promote the expression of Irish culture and identity through all Gaelic games, the Irish language, traditional music, theatre and dance, along with health and well being activities.

Michael Davitt GAC fully supports and complies with the non party political and non sectarian ethos of the GAA.

On Sunday 4th March 2018 a local community group which has no affiliations to any political party, having booked our clubroom, showed a documentary which featured the killing of three local people. These killings were the subject of condemnation from the European Court of Human Rights when it ruled for the first time on the use by any European Country of lethal force and the right to life.

We recognise and understand the public interest in such a documentary and we are content that it was facilitated. This is especially so in the context of its showing as part of a wider program of well-publicised cultural/community events which were conducted in a dignified manner.
